

## HASP

Choosing the right hasp is crucial as its security should match that of your padlock.

ABUS offers a range of security hasps, identifiable by concealed screws and equipped with hardened steel staples to secure the padlock shackle. When combined with the appropriate padlock, they provide optimal security for doors and gates. The ABUS 100 hasp, for flush doors, is recommended for use with padlocks like the ABUS Titanium 64TI/40 to prevent unauthorized access effectively.

## Technologies

- Extra strong hinge
- Hardened staple
- Including coach bolts and back plates
- Corrosion protected
- Hidden screws

## Use and application

- To secure valuables / goods of great value or at a very high risk of theft
- Heavy steel hasps in compliance with Swedish Insurance Class 2
- To be used with a padlock

## Technical data - 125/150
